Forward-Looking Statements

This presentation contains statements about future events and expectations that constitute forward-looking statements. These statements can be identified by our use of the words “believes”, “expects”, “projects”, “should” or similar words. The forward-looking statements herein include statements regarding the Company's future financial performance, growth opportunities, improved adjusted EBITDA, pricing opportunity, margin expansion, cash flow, increased operational flexibility and efficiency, achieve healthy growth and free cash flow generation in the future, ability to improve return on capital employed, and objectives of management for future operations. These forward-looking statements are based on current expectations and assumptions and are not guarantees of future performance and are subject to risks and uncertainties that are difficult to predict and which may cause actual results to vary materially because of factors in this presentation, the Company's most recent earnings press release, the Company's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q and other filings with the Securities and Exchange Commission.

Additional risks and uncertainties include, but are not limited to, risks associated with the execution of our plans and strategies. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In addition to disclosing financial results that are determined in accordance with U.S. generally accepted accounting principles ("GAAP"), the Company also discloses in this presentation certain non-GAAP financial information including EBITDA, adjusted EBITDA and free cash flow. These financial measures are not recognized measures under GAAP and are not intended to be and should not be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. Additional non-GAAP information may be found in the Appendix to this presentation.

Disciplined Capital Allocation Strategy Geared Towards Shareholder Value Creation

Invest in the Business

- Primary focus on long-term growth and return on capital
- \$11 million net fleet capex spend in Q3 2019 to meet near-term demand at optimized rates

Manage Leverage

- Focused on delevering given EBITDA growth and cash flow for debt reduction
- Leverage ratio decreased to 3.8x at Sept. 30, 2019 from 4.2x at Dec. 31, 2018

Strategic M&A

- Review merger and acquisition opportunities in Storage Solutions business that align with our steel-centric asset economics
- Recently acquired one tuck-in acquisition in Storage Solutions and identified opportunities in the pipeline

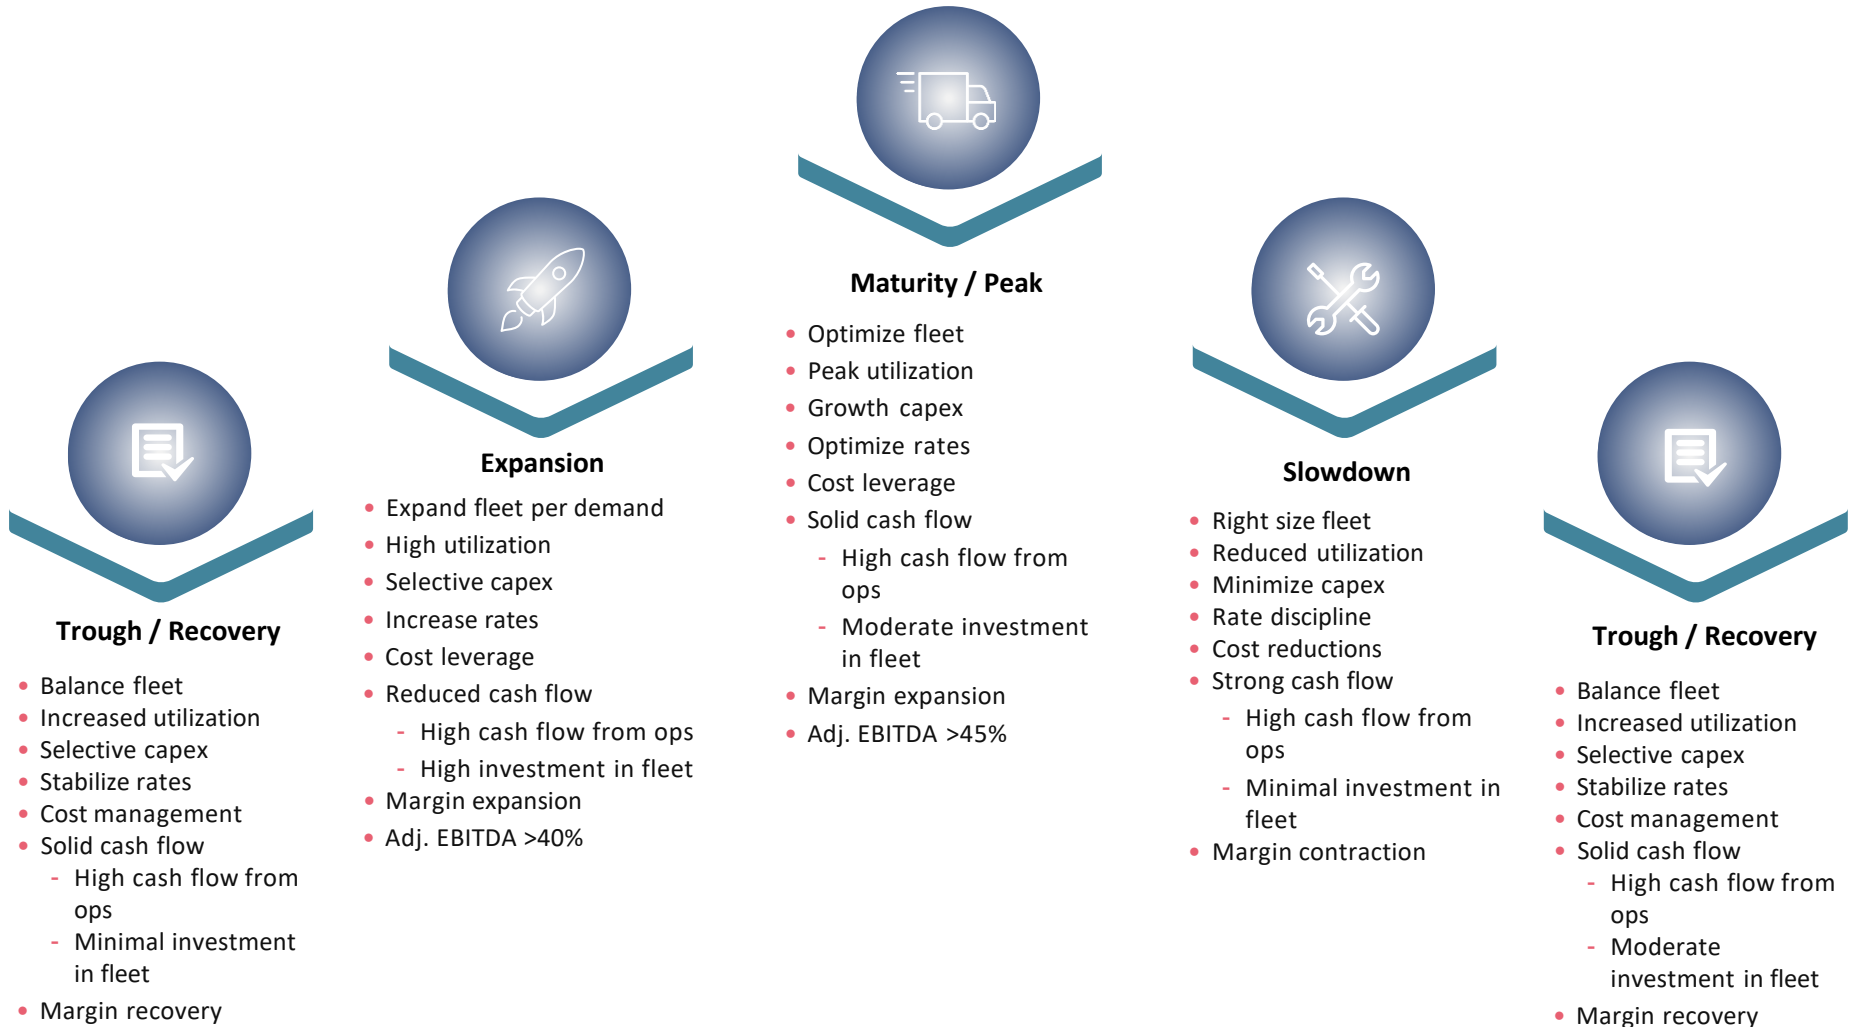

Shareholder Returns

- 2019 represents the 6th consecutive year the Company has paid dividends
- Scheduled to pay \$50 million in 2019 dividends (10% increase per share per year)
- \$28 million share repurchase year to date through Sept. 2019
- \$42 million authorized under our share repurchase plan

Our flexible capital structure facilitates strategic investment and optimizes total shareholder return

Enables Mobile Mini To Maximize Free Cash Flow During All Phases Of The Business Cycle

Positive Free Cash Flow Generation Throughout The Cycle

- Demand-driven capex allows us to reduce capex at our discretion
 - Low to no maintenance capex throughout the cycle
- Unique ability to generate free cash flow coming out of a cycle's trough. Our long-lived, well maintained fleet is rent-ready in the upswing, so notable capex needed only when demand exceeds the prior peak
- Sustained creation of meaningful shareholder return in total payout (dividends and buybacks)
- Flexibility to support capital allocation strategy and growth
 - Ample liquidity of \$420mm at September 30, 2019¹

Free Cash Flow

Consistently Returning Value to Shareholders Throughout the Cycle

Appendix

Non-GAAP Financial Information

In addition to disclosing financial results that are determined in accordance with U.S. generally accepted accounting principles (“GAAP”), the Company also discloses in this press release and accompanying presentation certain non-GAAP financial information. These financial measures are not recognized measures under GAAP and they are not intended to be and should not be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. Adjusted net income, adjusted diluted earnings per share, EBITDA, adjusted EBITDA, EBITDA margin, adjusted EBITDA margin, free cash flow and constant currency financial information are non-GAAP financial measures as defined by Securities and Exchange Commission (“SEC”) rules. This non-GAAP financial information may be determined or calculated differently by other companies.

Adjusted net income information and adjusted diluted earnings per share. Adjusted net income and related earnings per share information exclude certain transactions that management believes are not indicative of our business. We believe that the inclusion of this non-GAAP presentation makes it easier to compare our financial performance across reporting periods on a consistent basis.

EBITDA and adjusted EBITDA. EBITDA is defined as net income before discontinued operations, net of tax (if applicable), interest expense, income taxes, depreciation and amortization, and debt restructuring or extinguishment expense (if applicable), including any write-off of deferred financing costs. Adjusted EBITDA further excludes certain non-cash expenses, including share-based compensation, as well as transactions that management believes are not indicative of our business. Because EBITDA and adjusted EBITDA, as defined, exclude some but not all items that affect our cash flow from operating activities, they may not be comparable to similarly titled performance measures presented by other companies.

We present EBITDA and adjusted EBITDA because we believe they provide useful information regarding our ability to meet our future debt payment requirements, capital expenditures and working capital requirements and that they provide an overall evaluation of our financial condition. EBITDA and adjusted EBITDA have certain limitations as analytical tools and should not be used as substitutes for net income, cash flows from operations, or other consolidated income or cash flow data prepared in accordance with GAAP.

Free Cash Flow. Free cash flow is defined as net cash provided by operating activities, minus or plus, net cash used in or provided by investing activities, excluding acquisitions and certain transactions. Free cash flow is a non-GAAP financial measure and is not intended to replace net cash provided by operating activities, the most directly comparable financial measure prepared in accordance with GAAP. We present free cash flow because we believe it provides useful information regarding our liquidity and ability to meet our short-term obligations. In particular, free cash flow indicates the amount of cash available after capital expenditures for, among other things, investments in our existing business, debt service obligations, payment of authorized quarterly dividends, repurchase of our common stock and strategic small acquisitions.

Constant Currency. We calculate the effect of currency fluctuations on current periods by translating the results for our business in the United Kingdom during the current period using the average exchange rates from the comparative period. We present constant currency information to provide useful information to assess our underlying business excluding the effect of material foreign currency rate fluctuations.

Performance Metrics
